- Photoshop
- Axure

EDUCATION

Fullstack Academy of Code

Fullstack JS Immersive | 2017

General Assembly

UX Design Immersive | 2016

Stony Brook University

B.S. of Psychology | 2009

PROJECTS

Code Combat | 11/17 - 12/17

github.com/JonM90/CodeCombat

node, express, react-redux, sequelize, vm2, scss, sockets.io

- Code Combat - an in-browser game where users battle one another head-to-head by solving Javascript algorithms
- Created vm2 sandbox environments with Node.js and Sockets.io to allow users to contain and safely run code
- Led front-end design and served as project manager

Travelpedia (4 day solo hackathon project) | 11/17

github.com/yynnooot/Travelpedia

node, express, react, css

- Web app that allows users to get information about historical landmarks through images - utilizes Google Cloud Vision for image recognition and Wikipedia
- Utilized axios to make post requests to API's from front-end React component

Value Stream Labs - Huddle Insights | 1/16

- Created surveys and conducted user interviews with professionals in consulting, data analytics, and finance
- Sketched prototype designs, iterating after user testing, and create Wireframes

WORK EXPERIENCE

Citi Habitats / Promise Realty | 1/14 - 7/17

Real Estate Salesperson

- Worked closely with buyers, landlords and renters to uncover a deep understanding of their needs and goals
- Created marketing materials and spearheaded online advertising campaigns working individually and in teams

JP Morgan Chase Bank | 6/10 - 1/12

Personal Banker - Series 7 Licensed

- Advised clients with their investment strategy according to their short and longterm financial goals
- Managed depository accounts for personal and small business clients to ensure a great experience
- Acquired high net-worth client accounts resulting in over \$10 million in new assets for the branch
