EDUCATION

Fullstack Academy of Code

Fullstack JS Immersive | 2017

General Assembly

UX Design Immersive | 2016

Stony Brook University

BSc. of Psychology | 2009

PROJECTS

Cedrus Digital - Consultancy | 2/18 - 3/18

Software Engineer / UX Designer

node, express, ibm cloud & watson conversation, mocha/chai

- Designed high-fidelity wireframes for major insurance provider's internal invoicing dashboard
- Responsible for creating RESTful API routes for Digital Assistant/Chatbot POC (fetching user info as context for conversation service, connecting users to call center, and creating ticket details for customer service representatives)
- Created unit tests utilizing Mocha-Chai and Supertest

Code Combat | 11/17 - 12/17

Fullstack Developer - github.com/JonM90/CodeCombat

node, express, react-redux, sequelize, vm2, scss, websockets

- Developed Code Combat - an in-browser game where users compete with one another by solving Javascript algorithms
- Created vm2 sandbox environments with Node.js and Sockets.io to allow app to contain and safely run user code
- Led front-end design and served as project manager

Value Stream Labs - Huddle Insights | 1/16

UX Designer

- Created user surveys and conducted user interviews with professionals in consulting, data analytics, and finance
- Sketched prototype designs, iterating after user testing, and created Annotated Wireframes with Sketch

WORK EXPERIENCE

Citi Habitats / Promise Realty | 1/14 - 7/17

Real Estate Salesperson

- Worked closely with buyers, landlords and renters to negotiate and close real estate transactions

JP Morgan Chase Bank | 6/10 - 1/12

Personal Banker - Series 7 Licensed

- Advised clients with their investment strategy according to their short and longterm financial goals, and acquired high networth client accounts resulting in over \$10 million in new assets for the branch
